LOW'S IMPROVED ICE CRUSHER,

(PATENTED AUG. 22, 1876.)

*Is Simple, Powerful, Durable, Effective,
Economical, and in General Use.*

LOW'S LIFE-SAVING APPARATUS FOR BOATS,

(PATENTED JULY 10, 1883.)

By means of this apparatus, the lid of a Metallic Plug on the outside bottom of a capsized boat can be opened and a Life Line connected with it pulled through the bottom until stopped by a knot, with which to help another to get to the boat; also to cling to, and after reaching over and pulling out the opposite Life Line, have a leverage with it across the bottom of boat to right her with, and Bailers of a peculiar shape ready at hand to free it of water.

Liquid food added for Sustaining Life, and Signals for Night Attraction. The Storage Box for Dory use does not Interfere with Nesting or Stowage. Can be applied at any time.

Apply to DAVID W. LOW,

GLOUCESTER STREET DIRECTORY,

GIVING the location of the Streets, Places, and Squares, and showing what other streets, etc., run from them, or across them, with the number at which they intersect. From this list, the location of any number on a street, or the location of any public building, can be easily ascertained; as, for instance, wishing to know at what part of Prospect street No. 87 is located, you look at Prospect street, on page 20, and find that Elm street runs from 81, and Chestnut street from 93, showing that 87 would come on the right, between Elm and Chestnut.

When a street crosses another, numbers (or ciphers) are given on *both sides*; but when it commences or ends on that street, the number is given only on the side at which it intersects.
